WHY BUY LOCAL?

- It keeps dollars in Tybee's Economy. According to the 3/50 Project, out of every \$100 spent at a locally owned business, \$68 stays in the local economy.
- Residents will also be able to have more choices. The plethora of small businesses here helps to ensure more innovation, competition and lower prices over the long term. Local businesses choosing products based on what their local customers need and desire guarantees a more diverse range of product and service choices.
- Likewise, this program embraces what makes Tybee unique. Tybee is an island where we shop, eat, entertain, and play – it is why Islanders call it home.
- Lastly, local businesses are the lifeblood of our community. When we keep our dollars in the city, every purchase contributes toward our facilities, our culture and the well-being of our friends, relatives and neighbors.

Participation and offers are subject to change. Please check the Better Hometown Program webpage for updates.
