Sec. 5-090. Variances.

- (A) *Standards.* After an application has been submitted to the zoning administrator, reviewed by the planning commission, and a public hearing has been held by the mayor and council, the mayor and council may grant a variance from the strict application of the provisions in this Land Development Code only if the following findings are made:
- (1) That there are unique physical circumstances or conditions beyond that of surrounding properties, including irregularity, narrowness, or shallowness of the lot size or shape, or exceptional topographical or other physical conditions, peculiar to the particular property; and,
 - (2) That because of such physical circumstances or conditions, the property cannot be developed in strict conformity with the provisions of this Land Development Code, without undue hardship to the property.
- (B) *Height variances.* For height variances, in addition to other requirements, the petitioner shall be required to add two feet to each side yard setback for each one foot above 35 feet in height and have safe-guard consisting of sprinkler systems, smoke detectors and any other fire protection equipment deemed necessary at the time by mayor and council. Where a rear yard abuts a side yard of the adjacent lot, the petitioner shall be required to add two feet to the rear setback for each foot above the 35 feet height, and have safe-guards consisting of sprinkler systems, smoke detectors, and any other fire protection deemed necessary at the time by mayor and council.
- (C) *Variance longevity.* After a variance has been granted by the mayor and council it shall be valid for a period of 12 months from date of approval. Such approval is based on information provided in the application. Building permits may only be granted for plans consistent with the approved application. Any deviation from the information submitted will require separate approval by the mayor and council.
- (D) *[Reviewing variance applications.]* The staff, planning commission, and governing body, shall consider the factors stated herein in reviewing variance applications in taking action on a particular variance. In exercising the powers to grant variances, the mayor and council may attach any conditions to its approval which it finds necessary to accomplish the reasonable application of the requirements of these regulations.
- (E) *[Application approval.]* Notwithstanding any other provisions of the Code of Ordinances, the staff of the community development department through its department head may approve applications for variances without the need of public hearings and without the need of review by the planning commission or the mayor and council as follows:
- I. When either of the following circumstances exists:
 - a. The proposed improvement of alteration will not result in an expansion of the existing footprint of the existing structure; or
 - b. No additional encroachment into any setback shall be created by the proposed improvement, construction or addition.
 - II. When each of the following circumstances also exists:
 - a. No encroachment or construction of habitable space or other prohibited improvements will exist beyond the flood elevation; and
 - b. The requested improvements or construction will not violate existing zoning provisions.

This subsection shall have specific application to existing nonconforming structures as referred to in [section 3-020](#).

If the staff of the building and zoning department finds that the request needs or should have additional review for any reason, it may request review by the planning commission and if the request is approved or rejected by the planning commission then the planning commission's determination shall control. For purposes of this section, a public hearing before the planning commission shall not be necessary. If the staff of the building and zoning department declines an applicant's request the applicant may apply for the granting of a variance which will follow the procedures applicable to variances in general specifically, those procedures described in sections [3-020](#) and [3-090](#) as well as the public hearing requirements referred to in [section 5-060](#). In the event the staff request review by the planning commission and the planning commission rejects the request, the applicant may apply for the granting of a variance and follow the procedure applicable to such request before mayor and council.

(F) *Compliance with ordinances.* Notwithstanding any other provision of the Code of Ordinances, no application for a variance may be accepted nor may any variance be granted with respect to any property that is then not in compliance with the requirements of ordinances for the condition on which the variance is sought, unless the applicant files with the application a detailed written explanation of how, when, and by whom the need for a variance was created. In such a case, the planning commission shall make a recommendation to the mayor and council as to whether the variance should be approved or rejected or modified and the mayor and council, following a public hearing, may approve, reject or modify the variance request. In the event property is constructed in violation of the ordinances, the violation status remains until such time as the condition is rectified and placed in conformity with the ordinances. Violations of the ordinances may be subject to the enforcement provisions of this Code and all penalties permissible by law. A variance that is granted under this Ordinance does not excuse prior violations including those that have resulted or may result in enforcement action by the City of Tybee Island.
